

DEPARTMENT OF THE AIR FORCE
AIR FORCE SECURITY ASSISTANCE TRAINING SQUADRON (AETC)

4 October 2023

MEMORANDUM FOR DISTRIBUTION

FROM: AFSAT/CC
10583 H Street West,
JBSA Randolph TX 78150-4418

SUBJECT: Air Force Course Cancellation/Forfeiture Policy for Fiscal Year (FY24)

References: (a) Defense Security Cooperation Agency (DSCA) 5105.38-M, *Security Assistance Management Manual*, C10.15.
(b) AFI 16-105, *Joint Security Cooperation Education and Training (JSCET)*, Paragraphs 6-3 and 6-32.
(c) DoD 7000.14-R, *Financial Management Regulation*, Volume 15, Chapter 7, Section 072207.

1. The purpose of this memo is to provide annual supplemental information for FY24 on forfeiture charges for cancelling or rescheduling USAF managed Security Assistance Training in accordance with references (a), (b) and (c).
2. The courses listed in the attachment have been identified by the USAF as critical and are subject to the appropriate forfeiture charges for each course.
 - a. Flying Training will be applied a 100 percent forfeiture charge. There will be a 100 percent forfeiture charge for all confirmed training canceled or rescheduled with less than 180 days notification unless the quota is filled by another student. Additionally, a 100 percent forfeiture charge will be applied to all training that falls within and outside of the 180-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum.
 - b. Air Force critical courses will be applied a 100 percent forfeiture charge. There will be a 100 percent forfeiture charge for all confirmed training canceled or rescheduled with less than 60 days notification from training start date unless the quota is filled by another IMS or U.S. student. Additionally, a 100 percent forfeiture charge will be applied to all training that falls within and outside of the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum not including English Language Training.
 - c. In addition to the above, the Air Force has also designated a 100 percent forfeiture charge to Non-Flying and Non-Critical training courses. There will be a 100 percent forfeiture charge for all confirmed training canceled or rescheduled with less than 60 days notification from training start date unless the quota is filled by another IMS or U.S. student. Additionally, a 100 percent forfeiture charge will be applied to all training that falls within and outside of the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum not including English Language Training.
 - d. One exception to the rule is the Inter-American Air Force Academy which will have a 50 percent forfeiture charge. There will be a 50 percent charge for all confirmed training canceled or rescheduled

with less than 60 days notification from training start date unless the quota is filled by another IMS or U.S. student. Additionally, a 50 percent forfeiture charge will be applied to all training that falls within and outside of the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum not including English Language Training.

3. In accordance with references, (a), (b), and (c), the following applies to courses not identified on the attached list:

a. Training contracted/dedicated specifically designed for international customers: Once a contract is awarded or a quota is confirmed, a forfeiture charge up to 100 percent will apply if the country fails to send a student to the training, unless the quota is filled by another international student. Dedicated training includes courses which rely on contract support and/or courses that are designated for an international partner only.

b. Training contracted for a single international customer: Under USG direct contract, all costs incurred up to the point of contract cancellation shall be paid. This could include total charges or partial charges. Each element of cost will be reviewed and negotiated for a final settlement cost by appropriate USG warranted contracting officer and the contractor. If the contractor cancels or reschedules training, no penalty will be assessed.

c. All other training to include Distance Learning Courses: There will be a 50 percent forfeiture charge for all confirmed quota-bearing training canceled or rescheduled with less than 60 days notification from training start date unless the quota is filled by another IMS or U.S. student. The charges will be applied to all confirmed quota-bearing training within the 60-day window. Additionally, a 50 percent forfeiture charge will be applied to all training that falls within and outside the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum not including English Language Training. The MILDEP will specify training that is part of a sequential pipeline by message to Security Cooperation Organization on an annual basis. Similarly, any cancellation or rescheduling of training that was scheduled at the request of the country without the required lead time to cancel/reschedule will incur a 50 percent forfeiture charge.

d. The country should be provided training dates at least 90 days before the start date. Forfeiture charges will not be applied if country cancels or declines training and dates were provided less than 90 days in advance. However, if later training dates were provided at the request of country, the charges will be applied.

e. If a country requests or accepts a class seat for an out-of-cycle quota (within 90-day window), forfeiture fees will apply.

f. For training under International Military Education and Training (IMET) only: When IMET appropriations do not materialize at the program Country Program Director levels and DSCA directs countries to reduce their program, they are allowed 60 days to make the required adjustments without penalty for course cancellations. The 60-day adjustment period begins with State Department notification of IMET levels. Waiver of penalty charges under this paragraph does not apply to contract-dedicated or sequential training, or to normal program adjustments to accommodate new courses during the same timeframe.

g. Assess charges: The following guidelines apply to assessing charges after arrival of the International Military Student (IMS) at the first CONUS or OCONUS training activity.

(1) When a direct-entry IMS fails to achieve the prerequisite English Comprehension Level (ECL) on the course-entry ECL test, resulting in rescheduling or cancellation of training, forfeiture charges will apply.

(2) When an IMS attending English Language Training at Defense Language Institute English Language Center fails to meet the language prerequisite of the follow-on course, the country will be charged for the language training received and for follow-on training according to forfeiture rules above.

(3) When the IMS is recalled by their country for official reasons or the IMS has disciplinary problems, forfeiture charges will be assessed for the current course or phase and for the follow-on training according to forfeiture rules above.

(4) When the IMS has an injury or illness incurred during training, or compassionate return, the country will be assessed forfeiture charges for all contract/dedicated/flying/sequential pipeline training according to the forfeiture rules above. For all other training courses, assess forfeiture charges for the course started but not completed; do not assess forfeiture charges for the follow-on course.

4. Procedures: The date the cancellation was transmitted from the country by the Security Cooperation Organization or other duly appointed and recognized U.S. representative will constitute the official notification date. The Security Cooperation Organization must immediately comply with the cancellation procedure established by AFSAT.

5. Waiver of Forfeiture charges: These charges will not be applied when cancellation is the fault of the USG, such as deletion of classes or rescheduling, nor will it be applied when the cancellation is due to unavoidable circumstances within the country, such as national disasters or airline strikes. Other circumstances may warrant a waiver of forfeiture charges. Ultimate waiver authority is at the discretion of the AFSAT Commander.

6. This message supersedes previous memorandums. For questions or concerns, please contact Mr. Vincent Manners, AFSAT/MSO, at (210) 652-8194, or via e-mail at vincent.manners.2@us.af.mil.

CASEY N. POMBERT, Colonel, USAF
